5 CPD Units per day**

**DAY ONE: morning**

**THURSDAY 13 JANUARY**

08.45 – 09.30 Registration and Coffee

09.30 Annual General Meeting

10.25 Welcome by Prof John Hodges

**The Social Brain - Session Chairman: Prof John C Marshall**

10.30 **How primates learn novel complex skills: the evolutionary origins of generative planning?**  
Prof Richard Byrne, The University of St Andrews

11.00 **Recognition of emotion after brain injury**  
Prof Andy Young, York University

11.30 **Brain imaging studies of 'theory of mind'**  
Prof Uta Frith, University College London

12.00 **The Neuropsychiatry of Abulia and Apathy**  
Dr German Berrios, Addenbrooke's Hospital/University of Cambridge

12.30 **Schizophrenia is (not simply) a neurodevelopmental disorder**  
Prof Robin Murray, Institute of Psychiatry

13.00 Lunch

**DAY ONE: afternoon**

**Members papers/videos - Session Chairman: Prof David Skuse**

- 14.00        **Specific deficits in orbit frontal function in patients with frontal variant frontotemporal dementia**  
Dr Shibley Rahman, Addenbrooke's Hospital/University of Cambridge and B J Sahakian, J R Hodges, R D Rogers, T W Robbins
- 14.15        **Social cognition in frontotemporal dementia**  
Dr Carol Gregory, Fulbourn/Addenbrooke's Hospital, Cambridge and V Stone, S Lough, J R Hodges, S Baron-Cohen
- 14.30        **The independence of theory of mind and executive functions: A case of Asperger's Syndrome following congenital amygdala damage**  
Dr Cordelia Fine, Institute of Cognitive Neuroscience, UCL, London and J Lumsden, R J R Blair
- 14.45        **Depersonalization: Thinking without feeling**  
Dr Mary Phillips, Institute of Psychiatry and N Medford, C Senior, E T Bullmore, M J Brammer, C Andrew, M Sierra, S C R Williams, A S David
- 15.00        **Autonomic Response in Depersonalisation**  
Dr Mauricio Sierra-Siegert, Institute of Psychiatry and C Senior, J Dalton, M Phillips, A Bond, A S David
- 15.15        **Real-life-type problem-solving and frontal lobe functioning**  
Dr Shelley Channon, University College London and S Crawford
- 15.30        **The Thalamus in Schizophrenia: An in Vivo Neuropathological Study using Magnetisation Transfer Imaging (MTI)**  
Dr M S Bagary, Institute of Neurology and J Foong, M Maier, G J Barker, D H Miller and M A Ron
- 15.45        Tea

**Session Chairman: Prof John Hodges**

- 16.15        **1998 Prize Winners**  
**Motherhood and Memory: Pregnancy may be bad for hippocampal health**  
Dr Sallie Baxendale, National Society for Epilepsy/The Institute of Neurology and Dr Matthew Brett
- 16.30        **Keynote Address:**  
**The role of the frontal lobes in complex behaviour**  
Prof Bruce Miller, University of California, San Francisco
- 17.30        Close

**DAY TWO: morning**

**FRIDAY 14 JANUARY**

**Neuropsychiatric aspects of Epilepsy - Session Chairman: Prof Tony David**

- 09.30        **Keynote Address:**  
**The Social Brain - the link with epilepsy**  
Prof Christian Elger, University of Bonn
- 10.30        Coffee
- 11.00        **Pseudoseizures**  
Dr Tim Betts, Queen Elizabeth Psychiatric Hospital, Birmingham
- 11.30        **Forced normalisation and related phenomena**  
Prof Michael Trimble, The Institute of Neurology and  
The National Hospital for Neurology and Neurosurgery

**Members papers and videos - Session Chairman: Prof Michael Kopelman**

- 12.00        **Social cognition in frontal lobe epilepsy**  
Dr Rhiannon Corcoran, University of Manchester and  
C Harris, P J Thompson, G Baker
- 12.15        **Temporal Lobe Epilepsy, Paranoid Schizophrenia & Astrocytoma: A  
Forensic Neuropsychiatric Video case**  
Dr Ekkehart Staufenberg, Little Plumstead Hospital, Norwich and S Lewis
- 12.30        **SLE, Seizures and Self-harm**  
Dr Bruce Moore, Royal Liverpool University Hospital and  
K O'Driscoll, S Vinjamuni
- 12.45        **Chasing the Chimera of Unitary Mnemonic Network Disruption in  
'Organic' Amnesia: Analysis of a Large FDG-PET Dataset**  
Dr Laurence Reed, St Thomas's Hospital and  
P K Marsden, N Stanhope, M Kopelman
- 13.00        Lunch

**DAY TWO: afternoon**

**Neuropsychiatric aspects of Epilepsy - Session Chairman: Prof Michael Trimble**

- 14.00        **The role of brain imaging in the evaluation of patients with epilepsy**  
Prof John Duncan, The National Society for Epilepsy and  
The National Hospital for Neurology and Neurosurgery
- 14.30        **New anticonvulsant drugs, unbiased opinions**  
Prof David Chadwick, Walton Centre for Neurology and Neurosurgery

**Members papers and videos - Session Chairman: Prof Mary Robertson**

- 15.00        **Amygdala and frontal lobe pathology in patients with temporal lobe epilepsy and affective aggression. A quantitative magnetic resonance imaging study**  
Dr Ludger Tebartz van Elst, University of Freiburg, Germany/Raymond Way Research Group/Epilepsy Research Group, Institute of Neurology and R G Woermann, L Lemieux, P J Thompson, M R Trimble
- 15.15        **Epilepsy? – Narcolepsy: a report of three cases**  
Dr Adam Zeman, Western General Hospital, Edinburgh and R Aylward
- 15.30        Tea
- 16.00        **Electroconvulsive Therapy in Parkinson's Disease**  
Dr Raymond A Faber, South Texas VA Hospital
- 16.15        **A Case report of Epilepsy and Homicide**  
Dr Peter Fenwick, Institute of Psychiatry and J Lumsden, G Fenton
- 16.30        **The basis for musical hallucinosis**  
Dr Tim Griffiths, Newcastle General Hospital
- 16.45        Close
