

**THE
BRITISH NEUROPSYCHIATRY ASSOCIATION
ANNUAL CONFERENCE**

THURSDAY 13 AND FRIDAY 14 FEBRUARY 2003

Thursday, 13 February
*Recovering from Head Injury and
Medico-Legal Aspects of
Neuropsychiatry*

Friday, 14 February
*The Neuropsychiatry of Love (A feast
for Valentine's Day) and
Members' Forum*

Wednesday, 12 February
Any BNPA member will be welcome to
attend the one-day Head Injury
Conference – *Stepping Out After Brain
Injury*

VENUE
THE INSTITUTE OF CHILD HEALTH, Central London

Meeting approved for CPD by Royal College of Physicians

Thursday 13 February 2003

09.00-10.10 **Registration and Coffee**

10.10-10.15 **Welcome by Professor Michael Trimble, Chairman**

Morning session - Recovering from head injury

Chairman: Dr Danny Rogers

10.15-11.05 Biological processes and pharmacological possibilities
Dr Tracy K McIntosh, University of Pennsylvania, USA

11.05-11.30 **Coffee**

11.30-12.10 Pathophysiological Mechanisms of Recovery: Clues from Functional MRI One Month and One Year After Injury
Professor Thomas McAllister, Dartmouth Medical School, USA

12.10-12.40 Outcome following children's head injury and its impact on family life
Dr Judith Middleton, Radcliffe Infirmary, Oxford

12.40-13.00 Head injury and Alzheimer's Disease
Dr Simon Fleminger, Maudsley Hospital

13.00-14.15 **Lunch**

Afternoon session - Medico-Legal Aspects of Neuropsychiatry

Chairman: Professor Thomas McAllister

14.15-14.45 Claiming for neuropsychiatric injury – the legal view
Professor Michael Jones, University of Liverpool

14.45-15.15 Neuropsychiatry in the Criminal and Appeal Courts
Professor Michael Kopelman, St Thomas' Hospital, London

15.15-15.45 Retrograde and post traumatic amnesia – a critical review of the evidence
Professor Narinder Kapur, Southampton General Hospital

15.45-16.15 **Tea**

16.15-16.45 Whiplash injuries – the state of the controversy
Dr J M S Pearce, Hull Royal Infirmary (Emeritus Consultant)

16.45- 17.15 There is no such thing as a minor head injury - Debate
For: *Dr Peter Harvey, Royal Free Hospital, London*
Against: *Dr Jonathan Bird, Frenchay Hospital, Bristol*

17.15 **Close of Meeting**

Friday 14 February 2003

09.00-09.30 **Registration**

Morning session – Members' papers
Chairman: Dr Howard Ring

09.30 –12.30 A number of short papers including:

Do Neuropsychological Measures Predict Functional Outcome in Head Injury Patients?

Laura Bach and Donna Oliver, Maudsley Hospital, London

22q11 Deletion Syndrome – a search for clues to the origins of schizophrenia

Kate Baker, Institute of Child Health, London

Developing a Comprehensive Neuropsychiatry Service: The Stoke Model

Dr Ken Barrett, Haywood Hospital, Stoke

Sexual behaviour in patients with Huntington's disease

Dr David Craufurd, J Thompson, J S Snowden, St. Mary's Hospital, Manchester

Psychotropic medications in neurobehavioural treatment of aggression after acquired brain injury: efficacy and incidence of side effects

Dr John Freeland, A James, J Woods and J Sessions, Brain Injury Rehabilitation Trust

The treatment of Camptocormia – a case example

Dr Linda Heaney, Wotton Lawn Hospital, Gloucester

De Clerambault's syndrome and executive dysfunction: a case report

Dr Sheila Hudson, Maudsley Hospital, London

Effect of Galvanic Skin Response (GSR) Biofeedback Treatment in Patients with Epilepsy

Dr Yoko Nagai, Laura Goldstein, Peter Fenwick, Michael Trimble, Institute of Neurology, London

Hypersexuality and Parkinson's Disease

Dr Philip Shaw, A Blockley, C Clough, R Chaudhuri, R Weeks and A S David, Institute of Psychiatry, London

Hashimoto's Encephalopathy: An Organic cause of Neuropsychiatric Illness in Adolescence

Dr Sharon Taylor, E Garralda, Imperial College School of Medicine & St Mary's Hospital

Friday 14 February 2003

12.30-13.00 **Annual General Meeting**

13.00-14.00 **Lunch**

Afternoon session - The Neuropsychiatry of Love (A feast for Valentine's Day)

Chairman: Professor Michael Trimble

14.00-14.35 The anatomical basis of desire and addiction
Professor Barry Everitt, University of Cambridge

14.35-15.05 Pathological Love – de Clerambault and Othello
Professor Paul Mullen, Victorian Institute of Forensic Mental Health, Australia

15.05-15.35 Cerebral Disorders and Disturbances of Sexual Behaviour
Dr Peter Gautier-Smith, London

15.35-16.00 **Tea**

16.00-16.30 Biological basis of gender dysphoria
Professor Richard Green, Imperial College School of Medicine

16.30-17.00 Enduring Love
Ian McEwan, (Author)

17.00 **Close of meeting**

Wednesday 12 February 2003 - “STEPPING OUT AFTER BRAIN INJURY”

Introduction

The theme of this one-day conference is the transitional period of recovery after brain injury once the person has left hospital and is aiming to return as quickly and smoothly as possible to as normal a life as possible. How can symptoms be kept to a minimum and activities resumed in good time? There will be an emphasis on mild head injury.

Key topics will be the efficacy of early interventions and educational packages, information systems, return to work packages, role of case managers, pathways of care and links to mental health services.

The target audience is broad, from clinicians in hospital and discharge coordinators, through to community rehabilitation teams and brain injury coordinators/case managers, through to occupational health clinicians and employment advisors. Users groups will be welcome.

Programme

09.30-10.00 **Registration and coffee**

10.00-10.05 **Introduction and Welcome – Dr Simon Fleminger**

Morning Session - Chairman: Dr Simon Fleminger

10.05-10.35 Management in the Emergency Department: preparing people for the best
Professor David Yates, Hope Hospital/University of Manchester

10.35–11.20 Mild head injury: predicting who may need help
Dr Corwin Boake, University of Texas-Houston Medical School, USA

11.20–11.50 **Coffee**

11.50–12.20 Early interventions: minimizing post-concussion symptoms
Professor Rodger Ll. Wood, University of Wales

12.20–13.00 Neuropsychiatric Sequelae of TBI: Fact And Fiction
Professor Thomas McAllister, Dartmouth Medical School, USA

Wednesday 12 February 2003

Afternoon Session – Chairman: Dr Raghu Gaiind

- 14.15–14.45 Setting up an acquired brain injury service: who to help whom?
Jenny Garber and Maggie Campbell, St Georges Community Health Centre, Sheffield
- 14.45–15.15 Case management: for long-term conditions.
Cathy Johnson, Rehab without Walls, Milton Keynes
- 15.15-15.45 **Tea**
- 15.45–16.30 Factors determining back to work after severe TBI
Professor Zeev Groswasser, Loewenstein Rehabilitation Hospital, Israel
- 16.30–16.40 Conclusions
Dr Graham Powell
- 16.40 **Close of meeting**
